EXPERIENCE

THE HOMEWORK APP | DevOps Intern
June 2022 – Current | Remote

- ➜ Optimized and streamlined deployment and assembling of intermediate builds with the help us CI/CD pipelines.
- ➜ Devised a solution to address the system's low observability by aggregating logs with the help of graylog and elasticsearch.

FREELANCER
January 2021 – May 2022 | Remote

- ➜ Understanding clients problems and requirements and providing them with suitable solutions.
- ➜ Worked from building a team to delivering and maintaining the solution on production.

DEVOMARK | Full Stack Developer
October 2020 – January 2021 | Mumbai, India

- ➜ Assembled the whole projects from building REST API based back-ends systems to creating the GUI and also integrating it.
- ➜ Arranged client meetings throughout the development process to make sure we were moving in the same direction.

PROJECTS

BLOCKCHAIN MIDDLEWARE VOTING ⬈ | Etherium, Python, Flutter, Docker
2022

- ➜ The main purpose of the application was to build a blockchain based voting system that can be integrated seamlessly to any application with the help of the middleware.
- ➜ This made it so that the 3rd party app integrator does not need any knowledge of the blockchain to use our blockchain voting application.

HUBSHUB | FastAPI, AWS, ReactJS, Hubspot
2021

- ➜ The purpose of the product was to solve the disconnect between warehouse space and the customers who use them by connecting customers to warehouse and allowing a seamless renting of sub-space of the warehouse all through the application.
- ➜ It was a total solution from external CRM integration, geolocation-optimized suggestion and to e-contract pipelining through three different types of users.

LEADERSHIP / EXTRACURRICULAR

CODESTORM SENIOR COMMITTEE | Technical Team
2021 - Current

- ➜ Organize Hackathons, Expos and other minor events.
- ➜ Handle any and all technical needs of the team from selecting and inviting judges to developing and maintaining the web-app.

SKILLS

PROGRAMMING

Proficient:
JavaScript • Python • SQL • CSS/SCSS • HTML • Shell

Experienced:
MongoDB • Typescript • Java

Familiar:
C++ • C • Assembly

LIBRARIES/FRAMEWORKS

jQuery • Node.js • FastAPI • ReactJS • React Native • Django • Flask

TOOLS/PLATFORMS

Git • AWS • Docker • Niginx • Heroku • Firebase • Graylog

EDUCATION

THADOMAL SHAHANI COLLEGE OF ENGINEERING
Bachelor's in Computer Engineering
Jul 2020 - Present | Mumbai, India
Cum. GPA: 8.4 / 10.0

BABASAHEB GAWDE INSTITUTE OF TECHNOLOGY
Diploma in Computer Science
Jul 2020 | Mumbai, India
Percentage: 94.80
